

HOW TO REMOVE BLACKBERRY TRACKBALL BY DCMUGEN

*****PLEASE PERFORM THIS AT YOUR OWN RISK

TOOLS NEEDED:

PHILLIPS SCREWDRIVER (NO BIGGER THAN 2.5MM)

SMALL PLIERS

STARTING....

1. WHAT YOU FIRST NEED TO DO IS REMOVE THE SILVER PLASTIC RING AROUND THE TRACKBALL. WHAT YOU'LL NEED IS A SMALL SCREWDRIVER OR SOMETHING WITH A SMALL TIP. **NOT A KNIFE**, I REPEAT DON'T USE A KNIFE BECAUSE IT MIGHT DAMAGE THE MECHANISM. I USED A SMALL PHILLIPS SCREWDRIVER.
2. AFTER THIS IS DONE, YOU CAN NOW CAREFULLY REMOVE THE TRACKBALL.
3. TO POP IT OUT JUST FACE THE BERRY DOWN AND POP IT OUT. IT SHOULD JUST FALL OUT EASILY WITH MINIMAL FORCE. IT'S HELD IN BY A MAGNET.
4. REPLACE YOUR OLD TRACK BALL WITH THE NEW ONE.
5. THE PUT THE MECHANISM BACK INSIDE THE BLACKBERRY. PUT THE PLASTIC RING BACK ON AND THERE YOU GO GOOD AS NEW.
6. DONE!
